Trust and Security at JetBrains

Please visit our Trust Center to learn more about JetBrains' security practices, compliance certifications, and data protection measures. Our Trust Center provides comprehensive information on our infrastructure security, organizational security policies, product security features, and data privacy procedures. You can also find details on our SOC 2 Type II and GDPR compliance, access security resources, and view our controls across various security domains. For any security or compliance-related inquiries, contact us at security-compliance@jetbrains.com.
